

# DEDICATED TO THE SUCCESS OF UNION CONSTRUCTION

## OUR PURPOSE

The Wabash Valley Contractors Association is a group of business management professionals dedicated to impacting the success of the construction industry in Terre Haute, Vigo County, and surrounding areas. Together, we work to increase the development of local companies and our respective labor forces with an ultimate goal of ensuring that local citizens benefit from quality development within the Wabash Valley. Our members create this coalition which generates strong and knowledgeable leadership for both the business industry and the community which it serves.

To promote the construction industry of the Wabash Valley as a unified coalition

To work in association with local unions to provide quality construction

To create a forum to share information in a welcoming business atmosphere

To continue to award scholarships to youth in the industry
